Siskiyou Community Alliance

Invites you to Community Forum #3

Name what matters. Find what we share

This will be an opportunity to share your concerns in a respectful, facilitated atmosphere - whether it's

- housing,
- healthcare cost,
- rising food/gas/diesel cost,
- corruption,
- other?

We've started this series believing there's more that unites us than divides us and by identifying common ground, we can begin to work constructively towards solutions that benefit us all.

"Your voices shape the next steps."
